This is an excellent thing to know for there is nothing lik having the whole subject at your fingers' tips. There are many pointers here that will open the eyes of the smartest people. The advice and information contained in these instructions are invaluable to everyone, for the article has been carefully prepared and the different percentages figured out to a nicety. **XXX DICE MATERIAL**

Great quantities of cheap dice are being made today, and sold at all kinds of stores.

They are made of a plastic material of the poorest dice material which will chip, crack and break wide open when thrown against something hard such as a wood board or silver. We use a special material which will stand throwing against a brick wall and we guarantee dice made of it not to crack or break open by such use. This requires extra care, extra labor and extra cost. When a special job of this kind is needed the extra charge for each pair of dice will be \$2.50 and the customer should specify XXX material. A fair pair is given with each pair of loads. Be sure to specify XXX material.

**MAGICAL GOODS** are not returnable for refund or exchange after use. Clear instructions are sent with each order. If you do not understand them get some friend to help you and you will then see the beauty of Magic. Send deposit of one-half. Orders on Magic will then be sent COD for balance. We do not ship them without deposit.

**SPEAR-IT KNIFE**  
HARRISON'S KNIFE TRICK CO.

This is one of the most astounding pocket effects ever conceived. It takes a card which Harrison, who is one of Canada's leading magicians, has been baffling audiences for years. Magician asks one of the spectators to remove his coat. The coat is held up flat, and constantly over it, first by one or more people. Everyone is asked to gather around close in a circle. Magician opens a pocket and holds it in his right hand in his left he has a piece of paper pinned to the bill. He places the paper over the center of the coat and puts his right hand underneath the coat with the knife pushing it thru the coat and the paper. The coat is apparently mutilated beyond repair. But upon removing the knife and then the paper the magician rubs the spot and the coat is unharmed! Offering to show it again, he again covers the coat and pushes the knife thru it. This time to the audience's amazement the entire knife passes right thru the coat without harming it.

**HARRISON'S  
DIPPY MAGNET**

Anybody shuffles anybody's pack, removes any card which is shuffled back into the pack. Cards are spread out, backs up, on the table or floor. Now the "Dippy" magnet is "dipped" into the pack. Once this card is placed, it is immediately suspended from a cord. A magnet won't pick up cardboard, hence the name. The performer swings the magnet over the cards and one single card finally attaches itself to the magnet as the latter is lifted. The audience must ask the card to be placed. It may tear the card to pieces if a magnet is not how pick up that or any card, and everything may be examined. No extra cards, no substitutions, you use only the borrowed pack. A complete, ready to work, pocket trick.

**SPECIAL TO BANKERS**

Every banker should have his layout arranged so that the dice in use will give the best possible percentage. If you are now using a layout of any kind, you should send us a pencil drawing of it and let us know the kind of dice you are using and we will tell you whether the dice are properly suited to the layout or not.

Many bankers are operating today with layouts which do not give them the percentage to which they are properly entitled and for this reason they are not getting satisfactory results. Suppose you are banking with the wrong kind of layout or the wrong kind of dice and by making a slight change, you could increase your percentage only slightly, just enough to win five bets more in a day's grind than you would otherwise do. If the bets were \$5.00 each, this means that you would be \$25.00 ahead on the day's work or a total of \$750.00 a month. A small percentage does not seem very important at first glance but over a period of time it amounts to a large sum to the cash drawer.

We have some beautiful propositions for bankers which are not listed or exposed in any catalog and if you are banking, be sure to send us a drawing of your layout as mentioned and you will then receive our full cooperation.

10-RED, BLUE, BLACK, INLAID SPOT DICE \$10.00

A dice to be perfect must measure the same distance through every side and all of the surfaces must be exactly the same or there will be an unfair percentage on it. Cheap store bought dice are always imperfect.

We recommend round edges and corners for long lasting and wearing qualities. Perfect dice quickly pay for themselves in a square game. Initials free on 10 dice or more. Otherwise 50¢ extra.

## SET No. 70

This is a combination set and is one of the most favorite sets ever placed on the market. There are three dice, two of which are made for strong missouts just the same as Set No. 126, while the third one is used for "Passing" and the two passers make 4-6-8-10.

## SET No. 88

This is also a combination set, composed of three dice. Two of them are made very strong for "passing" just the same as Set No. 35, while the third dice is to shift in and make them "miss out" after they have come out on a point. When the third one is in use it makes them "miss out" either with a 4-3 or a 5-2. The "buster" or "shift" dice works with either of the other two.

## BEAT THE DEALER

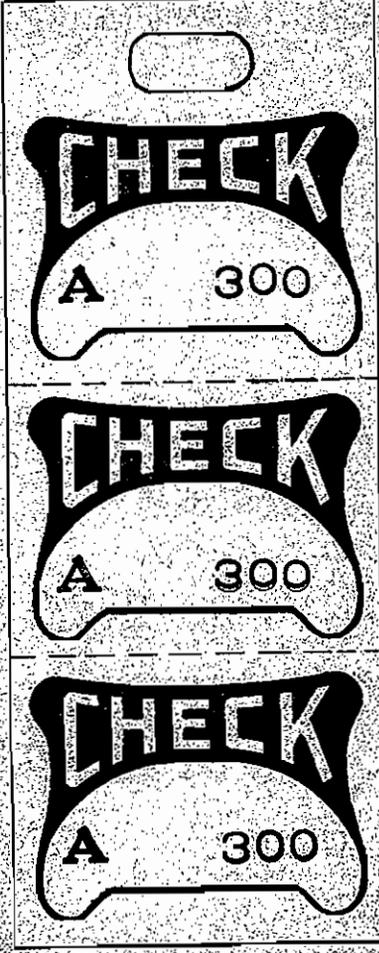

The game of Beat The Dealer has become very popular. It is a wonderful fascinating quick profit maker. No layout is necessary. All you need is two perfect dice and a dice box. The banker or house man throws out the dice and what ever number he throws the player has to beat it. Thus if the banker throws Six with 5-1 and the player throws Six with 3-3 the player loses because the spots are counted and the player did not throw a higher number than the banker, and he takes all ties. If the banker throws 6-6 he pays all bets and then starts over again.

Price No Cheat Dice Box, Two 3/4 inch Perfect Dice, any color..... \$5.00  
Special dice can be made for the purpose also. Write us
